

PROFIBUS Training Schedule for 2010

Enclosed are the dates for PROFIBUS Training Courses currently scheduled by the PCC for 2010. Courses may be added to this and certain dates may change so please contact the PCC with any training related queries for an up-to-date schedule.

- Please note the Certified Installer's Course Exam is written on completion of the Troubleshooting and Maintenance Course as the material covered includes that of the Certified Installer's Course.
- The Certified Installers Course is a pre-requisite to the Engineers Course both may be completed in the same week.
- The PA Engineer's Course is an extension of the Engineer's Course. The Engineer's course is therefore a prerequisite to attending the PA Engineers course.
